The material contained in this submittal has been assembled for use in the preparation of specifications, designs, and estimates for the Durango Pumping Plant. This submittal updates the design data package previously submitted in October of 1991. Division A updates the previous design package, Division B consists of queries and responses, and the Appendix includes relevant drawings, memo's, and data. This update was prepared by the Farmington Construction Office with review and input by the Western Colorado Area Office-Durango.
